Data sheet

INCEPTOR GRX HIGH VOLTAGE

The INCEPTOR GRX HIGH VOLTAGE redefines safety. The specially designed EPS thorax and the helmet shell made of PC/ABS absorb particularly high impact energy - in the crown area as well as laterally. In addition, the ergonomic EPS core ensures outstanding wearing comfort. The neck strap of the INCEPTOR GRX HIGH VOLTAGE allows continuous width adjustment from 54 to 63 cm. The Gear Rack, several helmet clips and Euroslots allow you to attach accessories such as a headlamp, ear protectors or neck guard. All internal padding is replaceable and can be cleaned or replaced. Last but not least, the INCEPTOR GRX impresses with its distinctive and clear contours.

- Closed helmet shell for work under high tension
- Without chin strap for work on the ground
- EN 397:2012 (CHIN-X 250 chin strap sold separately)
- EN 50365:2002 1000V A. C.
